

University Course Catalog

How to search for courses

Search for any New School undergraduate- or graduate-level course here. View the course description and other details by selecting a course title from the search results.

Continuing Education

Continuing education students should search for noncredit, general credit, and certificate courses using the [Continuing Education Registration System](#).

Degree Students

Degree student registration information appears on the [Registrar's website](#). Degree students should pay particular attention to the course-level of classes. Course numbers reflect the academic level of a class: Undergraduate courses are numbered 1000 to 4000 and Graduate courses are numbered 5000 to 7000. Students should register for the appropriate course level based on their own studies; i.e. undergraduate students are allowed to take undergraduate-level courses. Permission may be offered for some upper-level undergraduate students to take 5000- and 6000-level courses. Graduate students interested in taking undergraduate courses should discuss how to register for those courses with their advisor.

Other Course Information

You can browse the [academics catalogs](#) or use the full [Class Finder](#) for further information.
